1 Dividing the document

1.1 Example

In this example, we show how subsections and subsubsections are produced (there are no subsubsubsections). Note how the subsections are numbered.

1.1.1 Subexample

Did you note that subsections are not numbered? This is so in the `book` and `report` classes. In the `article` class they too have numbers. (Can you figure out why?)

Note Paragraphs and subparagraphs do not have numbers. And they have *run-in* headings.

Though named "paragraph" we can have several paragraphs of text within this.

Subnote Subparagraphs have an additional indentation too.

And they can also contain more than one paragraph of text.
